Education

Bachelor's Degree, Computer Science – **Suez Canal University**

Sep 2022 – now

Achievements: Flutter Mentor of Computer Science at Microsoft SC SCU

Projects

QR Scanner & Generator App

(https://github.com/SalahFathy25/qr_scanner)

I developed this application to help people share contact information easily and conveniently by saving their contact information and then sharing it with others via QR code. They can also scan any QR code through the application.

To-do App

(<https://github.com/SalahFathy25/todo-App>)

Built a task management app using Flutter with local state management. Features include adding, deleting, and marking tasks as completed, with a clean and user-friendly interface.

Weather App

(https://github.com/SalahFathy25/Weather_app)

Developed a clean and responsive weather application using Flutter and OpenWeatherMap API. Displays real-time weather data based on user location with intuitive UI and smooth user experience.

تطبيق مشكاة

(https://github.com/SalahFathy25/Islamic_App)

An Islamic App that I work on development now.
